

Manning Park Resort

Enjoy the natural and friendly surroundings of the park located in the heart of the Cascade Mountain range in the interior of British Columbia. Just 3 hours from Vancouver and 2 ½ hours from Kelowna – we're closer than you think!

Manning Park is home to a wide variety of birds and animals. There are 206 separate species of birds and 63 species of mammals within the park. The Spotted Owl is at risk in British Columbia, because much of its preferred habitat has been adversely affected by logging or lost due to land development. These rare birds are known to occur within Manning Park and a management plan to conserve Spotted Owl in the Manning and Skagit Valley areas is underway
